

CIPPRS / ACTIRF

Canadian Image Processing and Pattern Recognition Society / Association Canadienne de Traitement d'Images et de Reconnaissance des Formes

CIPPRS is a special interest group of the Canadian Information Processing Society (CIPS) and acts as the official Canadian member of the governing board of the International Association for Pattern Recognition (IAPR). The goal of CIPPRS is to promote research and development activities in image and signal processing for solving pattern recognition problems.

Who can join CIPPRS?

CIPPRS is an open society. It welcomes any professional with research and development interests in signal and image processing for pattern analysis and classification, scene or speech understanding and recognition, computer vision, on-line and off-line document analysis and recognition, robotic perception, intelligent autonomous systems, biomedical imaging, neural networks and modelling, remote sensing, specialized architecture, realtime techniques, industrial applications, etc.

Benefits of membership

The two major benefits of membership in CIPPRS are reduced rates for Vision Interface as well as an automatic membership in the International Association for Pattern Recognition (IAPR). This latter status allows CIPPRS members to receive reduced rates on all IAPR sponsored activities. In addition, CIPPRS presents annually two awards to members that have made outstanding contributions to the Canadian Image Processing and Pattern Recognition Community.

Cost of Membership

Regular Member \$35.00 Cnd per year

Student Member \$20.00 Cnd per year

If you wish to join the society, please see : <http://www.cipprs.org/>

Executive

President: Prof. Fathallah Nouboud,
Université du Québec à Trois-Rivières
Département de Mathématiques et
d'informatique
C.P. 500, Trois-Rivières
Québec, Canada, G9A 5H7
Tel.: +1 (819) 376-5011 (3828)
Fax.: +1 (819) 376-5185
nouboud@uqtr.ca
